

MINING SERVICES & MANUFACTURING

DIRECTORY **A DIRECTORY OF COMPANIES SERVICING
THE NORTHERN QUEENSLAND REGION**

► FOREWORD

Townsville Enterprise is the region's primary body for economic development, charged with leveraging the region's assets and strengths to drive jobs, growth, infrastructure, investment and improving quality of life. It is an organisation determined to deliver for the Townsville North Queensland region and its people.

Townsville is the 13th largest city in Australia, and by far the largest population base in Northern Australia. The region has one of the most diverse economies in regional Australia, is widely recognised as the commercial hub of Northern Australia and maintains an enviable lifestyle for residents with a stunning natural environment.

With a robust commercial base and an ambition for greater population, prosperity and progress, Townsville North Queensland provides a wealth of opportunities to live, work, invest and develop. Townsville North Queensland is seen as a unique proposition for investment and prosperity.

The region is proud of its economic heritage founded on a strong base of agriculture and resources, Australia's largest military base, a port boasting a broad based trade profile and a world class university. To this foundation, Townsville continues to add

growing strengths in industries including tourism, education, research and services.

Strong population growth continues as does the region's focus on sustainable development and liveability.

This directory of Mining and Manufacturing Services outlines the plethora of local businesses with the capability and capacity to provide the resource sector with the support services it requires to be competitive in today's global market.

As always, we acknowledge the members and partners that support Townsville Enterprise in our objective to deliver for our growing region.

Tracey Lines
General Manager Economic Development
Townsville Enterprise Limited

TOWNSVILLE NORTH QUEENSLAND

THE LARGEST CITY IN NORTHERN AUSTRALIA

Townsville is the largest city in Northern Australia with a dynamic economy underpinned by a diverse range of industries.

With a fast growing population and economy, Townsville North Queensland is the ideal location to live, invest and visit.

Located 1,300km north of Brisbane and 250km south of Cairns, Townsville North Queensland is the commercial, industrial and administrative hub for Northern Australia.

Townsville North Queensland offers a diverse range of industry sectors that are recognised for their competitiveness on a global scale.

With access to domestic and international markets, Townsville North Queensland is perfectly positioned on Australia's north east coastline to provide businesses with opportunities to expand into broader markets.

Having the right information at your fingertips to plan for future work and identify trends across industries and the region can be a vital tool in the success of your business. Townsville Enterprise is working with Local Governments and industry partners to identify a pipeline of projects across Townsville North Queensland that will achieve just that.

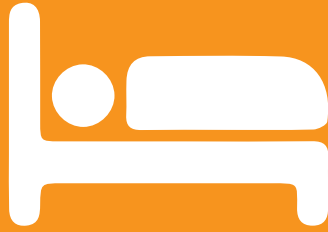

The Project Pipeline is a comprehensive listing of all major developments in the Townsville North Queensland region. This will include projects recently completed, under construction, in various stages of the development pipeline and those that are seeking private investment or public funding. This is designed to showcase the level of successful investment in the region to help reinforce business confidence, provide a prospectus of regional projects that are seeking external investment for potential investors and inform united advocacy for the region's priority infrastructure projects.

This Project Pipeline will be available from Townsville Enterprise and is one of three documents that will form a comprehensive resource showcasing economic development across Townsville, the Burdekin, Charters Towers, Hinchinbrook and Palm Island Shires – Opportunity Townsville North Queensland.

Opportunity Townsville North Queensland will feature three key sections – the Project Pipeline, State of the Region economic report and Make the Move, which looks at key lifestyle and liveability influencers across the region. Keep an eye out for the Opportunity Townsville North Queensland documents, due for release mid 2015 or contact Townsville Enterprise.

COMPANY RECORD:

Hands on Wildlife is your wildlife solution. If you need a qualified person to relocate animals from a clearing site or if you need to ensure that your employees know how to work safely around dangerous wildlife, the experts at Hands on Wildlife can help.

PRINCIPAL SERVICES & PRODUCTS:

Qualified, experienced fauna spotter catcher (wildlife removal and relocation), fauna and habitat surveys and reports, venomous snake handling and dangerous wildlife awareness courses.

The CLEAN OIL alternative

With the current economic climate, industry can no longer allow for unnecessary costs and inefficient management in production. Failure to implement a pro-active Lubrication Management System increases operational costs and is detrimental to the life and performance of expensive equipment.

For years the accepted practice has been to change oil in equipment on a predetermined scheduled basis regardless of whether the oil is spent. Mostly, used oil is simply loaded with contaminants such as dirt particles, wear metals, water and gases, while the oil remains within specifications and suitable for continued use. If the contaminants can be adequately removed without affecting the additives, there is no reason why oils cannot remain in service.

Just like a machine, oil requires servicing to optimise it's performance and extend it's life.

LUBEMASTER is innovative & very cost effective and enables oil life to be extended many fold, cleaning while your machinery continues operating. (Ask us how one of our client mine sites cut their overall lube expenditure by a massive 60% p.a. with a very small outlay.) Cleanliness levels achieved by LUBEMASTER are much higher than other systems & particularly pore membrane filters which allow the small particles to remain in circulation and for the filter to block once a particle larger than the pore size is caught in the element.

As well as lubricating oil, LUBEMASTER systems can be utilised for:

- Cleaning contaminated diesel fuel
- Cleaning and restoring transformer oils
- Effectively cleaning heat circulating systems
- Cleaning waste oil suitable for use as a diesel substitute to burn off in diesel engine fuel

COMPANY RECORD:

Spinifex Pest Control is a professional pest management company based in Townsville, servicing the North Queensland region. The skilled team has over 40 years of combined pest control expertise with insect and vertebrate pests. Spinifex has a reputation for delivering excellent and timely service to our clients. The owner, Michael Blacklock, is well regarded by peers and is supported by a national network of industry professionals and advisors.

PRINCIPAL SERVICES & PRODUCTS:

Spinifex's services help prevent property damage and mitigate pest related health concerns for employees. This is achieved by delivering specific pest control programs for commercial warehousing and offices, processing plants and infrastructure. Services include mosquito programs, rat and mice control, cockroaches, ants, spiders, flies, termites and birds. Electronic reporting, downtime and stock loss records, pest monitoring and trend analysis help to guide specific pest management programs.

WORKING WITH TOWNSVILLE ENTERPRISE

A MORE PROSPEROUS TOWNSVILLE AND NORTH QUEENSLAND, A STRONGER AUSTRALIA.

Townsville Enterprise is the primary engine room for economic development, charged with leveraging the region's assets to drive growth, create jobs, and improve quality of life.

It is an organisation dedicated to Townsville North Queensland and its people.

Historical achievements include the attraction of the Sun Metals Zinc Refinery and the V8 Supercars Townsville 400. Recent achievements include a

commitment of \$100M from the State Government to the new Sports and Entertainment Precinct and international status of the Townsville Airport.

We represent the regions of Townsville, Charters Towers, Burdekin, Hinchinbrook and Palm Island and are a not-for-profit, apolitical organisation with a history approaching 25 years.

Membership of almost 400 businesses places Townsville Enterprise in a strong position to represent the needs of industry, making the region a better place to live, invest, work and visit.

THESE STRATEGIES ARE DELIVERED THROUGH TEN KEY AREAS IN TWO COMPLEMENTARY STREAMS:

ECONOMIC DEVELOPMENT

PROJECTS

Work with industry and all levels of Government to ensure that the region has a continuous pipeline of projects being developed

ENERGY

Identify and advocate ways to ensure sustainable and affordable energy sources for the north

INVESTMENT

Support and connect members seeking investment into major projects that support the growth and prosperity of the region

INDUSTRY

Support and develop key industries that contribute to the region's diverse and robust economy

POLICY

Influencing policy reform where required at all levels of Government, through educated review and advice

THIS VISION WILL BE ACHIEVED BY WORKING IN PARTNERSHIP WITH THE BUSINESS COMMUNITY OF TOWNSVILLE NORTH QUEENSLAND.

IF YOUR BUSINESS WOULD BENEFIT FROM BEING INFORMED AND HAVING A VOICE IN THE REGION'S FUTURE DEVELOPMENT, BECOME A MEMBER TODAY.

TOURISM & EVENTS

AVIATION

Identify and advocate for better connectivity for trade and passenger movements

CRUISE

Attract cruise and military ships to our shores to support service industries such as retail, tourism and shipping during low and shoulder seasons

EVENTS

Attract and retain events that appeal to our key visitor markets to drive visitation to the region while enriching the community's lifestyle

SPORTS

Attracting sporting events to compete in the region to enrich our community's lifestyle and inject visitor dollars into the economy

EDUTOURISM

Promotion and development of the region's core strength as a centre of excellence for educational experiences
